

HART

Supply Chain Security

Helping our clients to achieve commercial benefits and operational efficiencies, whilst reducing risk

HART is one of the leading supply chain security companies in the world and provides supply chain security management solutions as a core service offering.

HART harmonises its supply chain, logistical experience and security experience to provide a unique service capability that uses security to enable its clients to:

- Identify, manage and reduce risk
- Heighten supply chain transparency
- Increase staff safety and security and thus reduce liability
- Achieve effective brand protection
- Leverage supply chain efficiencies in order to reduce operating cost and increase shareholder returns
- Sharpen competitive advantage and strategic differentiation

Our solution set includes:

- ISO 28000 consultancy and implementation
- Supply Chain Risk Management and Resilience Planning
- C-TPAT Services
- AEO Services
- TAPA Services
- Anti-counterfeit solutions
- Fraud & Theft Investigations
- Security Assessments, GAP Analysis & Security Plan/Development
- Security Exercises (Auditing & Testing)

Demonstrating the growing importance of security to corporate concerns, it is named as a top or high priority by 87% of business executives

'Prospering in the Secure Economy'. Deloitte Research.

HART maintains offices in 8 countries covering all continents.
